PAVING CONTRACT LET TO DOTHAN CONCERN; TO START NEXT WEEK.

At a regular meeting of the Town Council held Monday night, a contract for street paving was let to the Couch Construction Company, of Dothan. The contractors have announced that work will begin next week, probably Monday, and with favorable weather the project will be finished in about sixty days.

Streets to be paved are: Simmons street from square to new bridge which will be built on Beaver Dam creek; Davis street from the pavement at the M. E. Church to end of the street in front of the Marsh residence; Claxton street from Simmons to Davis street; Addison street from Davis to Rushing street; Rushing street from Addison to Beaver Dam creek bridge.

The cost of this improvement will be about \$47,000.00, and the Town of Elba will issue 10 year improvement bonds for the amount, which the contractor will take at par value for this work.

The Town Council has had this project under way for several weeks, and only a few objections were found to the paving and announcement of the awarding of the contract with the good news to those who have sponsored the improvement. The town officials are to be congratulated on their forward step.

S. S. CLASS HAS DE- LIGIOUS MEETING.

The Conqueror's Class of the Baptist Sunday School held a most delightful meeting Tuesday afternoon at the home of Miss Vera Helms at Opp. Miss Helms was formerly a member of this class. All except three members of the class were present, with the following visitors: Rev. and Mrs. T. C. Mahan, Mrs. Sam Rowe and Mrs. J. W. Kendrick, of Elba, Rev. and Mrs. Garri, and Mrs. Adams, of Opp.

An excellent program was rendered after which talks were given by Revs. Mahan, Gardner and Helms. Rev. Mahan spoke of the possibilities of this class. These talks were interesting and inspirational. Later the hostess served delicious cream and cake.

This class with Mrs. W. D. Pierson as teacher, is growing constantly. They are "doing things." Their latest resolution is to go in a body to prayer meeting each Wednesday evening.

GET OUT THE VOTE FOR 79th BIRTHDAY.

Reports from every county in Alabama indicate that the people favoring the good roads bond issue which will be voted on next Tuesday, April 12, are vastly in the majority. There is opposition in certain quarters and some effort has been made to effect an opposing organization throughout the State. This reactionary movement has met little encouragement.

Members of the State Highway Commission, which is composed of Colonel Woolsey Finney, Chairman and Chief Engineer, Henry J. Law and John S. Turner, have visited many sections of Alabama and their plans as placed before the public have been endorsed at numerous public meetings; also by Chambers of Commerce and Rotary and Kiwanis and other civic clubs and by those of the farmers. The Commissioners have prepared maps setting forth their purposes in a general way and have taken the public into their confidence as to what they propose to do with the \$25,000,000 of bond issue money and the approximately \$6,000,000 that will come from Federal sources within the next four years. By their frankness, they have gained the confidence of the people.

Chairman Sidney J. Reeves, of the Alabama Good Roads Campaign Committee, has sent out an urgent call to district, county and beat good roads committees requesting that they take nothing for granted, but work to get out the vote just as though there was open opposition instead of only "whispering campaign" against it. "Our only danger lies in over-confidence and consequent indifference," says Chairman Reeves in his appeal to road roads advocates.
